

### **I.3.3 Faculty Credentials**

Faculty are assigned to teach courses based upon pairing the course needs of the program with the professional expertise, academic credentials, and area of research/creative activity of each faculty member. This pairing of professional/academic credentials and course teaching assignments is evident in the Faculty Credentials Matrix in Section I.2.1 Human Resources & Human Resources Development on page 55 and in Section IV.4.3 Faculty Resumes on page 210.
